

## LET'S JOIN HANDS TO BRING HELP AND HOPE

When disaster strikes, Operation Blessing partners with churches on the ground to help meet your congregation's needs and care for your community.

### WORKING TOGETHER

#### HOST CHURCH

When we deploy to a disaster zone, we aim to partner with local churches that can serve as the central location for relief services.

The ideal location is close to the disaster zone, has ample space for equipment and pallets of goods, and has room to house overnight volunteers. If you have a kitchen and cafeteria where we can prepare and serve hundreds of meals daily, that would be a huge blessing, too!

#### VOLUNTEERS

Caring hearts and willing hands are what we need! Your congregation can be Jesus's hands and feet, preparing and serving meals from our fully stocked mobile kitchen or packing and distributing relief supplies and solar lights. You can help clear debris, tarp roofs, and more.

We provide trailers with generators, chainsaws, shovels, rakes, and other necessary tools. The opportunity to minister to your hurting neighbors who face hunger and loss in the aftermath of a disaster is a critical first step toward recovery that we want to help you take.

# ESSENTIAL RELIEF ITEMS

In addition to on-the-ground deployments after disasters, we provide what we call “relief loads.” These are trucks filled with vital emergency supplies. Even when our team isn’t deployed in person, we can still deliver relief loads to churches close to the disaster zone. Below are the typical items we provide in bulk. Depending on the need, we can often bring more items on deployments such as solar lights, baby items, water purification systems, and more.

## MEAL KITS

Meal kits are boxes of non-perishable food items that provide a variety of food options. Each kit provides a family of four with easy-to-prepare meals for three days. We can provide two types of kits. One is ready to eat and comes in 30 boxes per pallet. The other may need simple tools like a can opener, and comes in 70 boxes per pallet.

## DISASTER RELIEF KITS

We can provide buckets filled with garbage bags, gloves, disinfectants, scouring pads, and paper towels to help clean damaged homes.

*(36 buckets per pallet)*

## HYGIENE KITS

These kits of toiletry essentials promote health, dignity, and well-being. Each kit is lovingly packed and prayed over by caring volunteers and includes a card of encouragement.

*(480 kits per pallet)*

## CLEAN WATER

We can also deliver pallets of bottled drinking water to bless disaster victims in your community.

*“Working with Operation Blessing means strengthening the knots and casting a massive net to gather people for Christ.”*
